

Who we are?

Established in 2010, Sahel Consulting Agriculture and Nutrition Limited is a management consulting firm committed to transforming Africa's agriculture and nutrition landscape. Sahel partners with government agencies, private sector companies, and leading international development organizations to conduct in-depth market research on key value chains, analyze and shape policies, develop strategies, launch innovative businesses and ecosystem solutions, organize convenings and provide training programs that promote sustainable agricultural development across Africa.

Mission

To transform Africa's agriculture and nutrition landscape through tailored, innovative and market-based research, strategic advisory services, training and innovative business and ecosystem solutions, thereby impacting communities and achieving sustainable growth.

Vision

To be recognized as the most trusted consulting partner and point of reference in the African agriculture and nutrition landscape, integral to building effective and efficient value chains and attaining food security.

Our Services

Value Chain Analysis

We provide in-depth market research on key value chains, leveraging our industry knowledge, strong relationships with farmer organizations, research institutions the private and public sectors, and a network of field consultants in local communities across West Africa.

Consulting Support

We provide a wide range of advisory services including market entry strategies, business, and strategic plans for our clients.

Policy Consulting

Based on data-driven research, we provide policy recommendations to state, national and regional governments, and several international development organizations engaged in agriculture.

Ecosystem Solutions

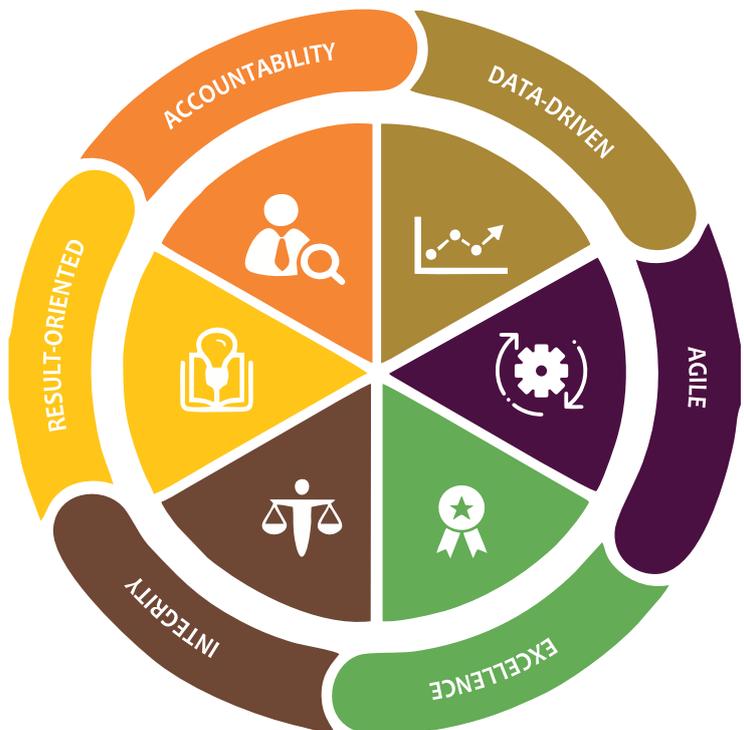

Based on the gaps that we identify in the landscape, we launch catalytic businesses and innovative programs in partnership with research institutions, public and private sector organizations.

Training Support

We design training programs and partner with academic and research institutions to build the capacity of farmers and other key stakeholders in the private and public sectors, NGOs, and CSOs using innovative tools and methods.

Our Core Values

Our Corporate Shared Values

We are committed to creating sustainable value in our communities through strategic investments, partnerships, and philanthropy.

We focus on two key interventions:

Sahel Scholars' Program

The Sahel Scholars Program educates and empowers Nigerian undergraduate students through mentorship, hands-on experience, and scholarships. Through its annual conferences and training programs, it also raises awareness about the importance and value of agribusiness education and partners with universities to prepare students for work and leadership in the sector.

Sahel in the Community

We are passionate about impacting the communities in which we work. Annually, our team members identify critical problems to address in health, hygiene, education, or the environment. Through their personal financial contributions, matched 3-fold by the company, they select nonprofit partners to engage with to deliver impact.

We work across multiple value chains to ensure food security and nutrition.

Value Chains

We provide in-depth market research and conduct deep dive analysis on key value chains, leveraging our profound industry knowledge and network of field consultants in local communities across West Africa. Below is a list of key agricultural value chains that we have analysed.

Livestock (e.g. Dairy, Fishery, Poultry)

Grain & Cereals (e.g. Maize, Rice, Oats, Sorghum, Millet)

Legumes (e.g. Cowpeas, Soybeans)

Fruits & Vegetables (e.g. Tomato, Orange, Pineapple)

Edible Oils (e.g. Palm Oil, Groundnut Oil, Soybean Oil)

Root & Tubers (e.g. Yam, Cassava, Sweet Potato e.t.c)

Processed Foods (e.g. Sugar, Salt, Flour)

Sahel Quarterly

Sahel quarterly provides insights on a range of issues critical to transforming Africa's agriculture and nutrition landscape.

You can find them under the impact & learning section of our website.
